## RESPONSE TO OFFICE ACTION

Sir:

In response to the Office Action dated February 26, 2002, please amend the aboveidentified patent application as follows:

## In the Claims:

Please amend Claims 1, 4, 13, and 16-21 as follows:

A method of modulating pupil dilation, comprising: (Amended) 1.

administering to an eye of a patient a formulation comprising an alpha 1 antagonist capable of disrupting endogenous compounds which stimulate dilator muscles of the eye; and

allowing the formulation to remain in contact with the eye for a period of time and under lighting conditions where the dilator muscles would be stimulated in the absence of the formulation.

The method of claim 1, wherein the compound characterized by its ability to reduce eye redness is tetrahydrazolene.
